PART V: REVIEW OF SUMMARY, METHODOLOGY AND EXPLANATION

Texas Labor Code § 413.011(a-d), titled *Reimbursement Policies and Guidelines*, and Division Rule at 28 Texas Administrative Code §134.1, titled *Medical Reimbursement*, effective May 2, 2006 set out the reimbursement guidelines.

1. For the services involved in this dispute, the respondent reduced or denied payment with reason codes W1, 97, 45, and W10, with additional payment comment code B291 – "This is a bundled or non covered procedure based on Medicare guidelines; no separate payment allowed." Review of the documentation submitted by the requestor finds no further explanation of the denial codes. The respondent did not submit EOBs or other documentation for consideration.

2. This dispute relates to outpatient surgical services provided in a hospital setting with reimbursement subject to the provisions of Division rule at 28 Texas Administrative Code §134.1, effective May 2, 2006, 31 TexReg 3561, which requires that, in the absence of an applicable fee guideline, reimbursement for health care not provided through a

workers' compensation health care network shall be made in accordance with subsection §134.1(d) which states that "Fair and reasonable reimbursement: (1) is consistent with the criteria of Labor Code §413.011; (2) ensures that similar procedures provided in similar circumstances receive similar reimbursement; and (3) is based on nationally recognized published studies, published Division medical dispute decisions, and values assigned for services involving similar work and resource commitments, if available."

3. Texas Labor Code §413.011(d) requires that fee guidelines must be fair and reasonable and designed to ensure the quality of medical care and to achieve effective medical cost control. The guidelines may not provide for payment of a fee in excess of the fee charged for similar treatment of an injured individual of an equivalent standard of living and paid by that individual or by someone acting on that individual's behalf. It further requires that the Division consider the increased security of payment afforded by the Act in establishing the fee guidelines.

4. Division rule at 28 TAC §133.307(c)(2)(A), effective December 31, 2006, and applicable to disputes filed on or after January 15, 2007, 31 TexReg 10314, requires that the request shall include "a copy of all medical bill(s)"… "as originally submitted to the carrier and a copy of all medical bill(s) submitted to the carrier for reconsideration in accordance with §133.250 of this chapter"… This request for medical fee dispute resolution was received by the Division on March 15, 2007. Review of the documentation submitted by the requestor finds that the requestor has not provided a copy of all medical bill(s) as originally submitted to the carrier and as submitted for reconsideration. The requestor has therefore failed to complete the required sections of the request in the form and manner prescribed by the Division sufficient to meet the requirements of 28 TAC §133.307(c)(2)(A).

5. Division rule at 28 TAC §133.307(c)(2)(F)(iii), effective December 31, 2006, and applicable to disputes filed on or after January 15, 2007, 31 TexReg 10314, requires that the request shall include "a position statement of the disputed issue(s) that shall include"… "how the Labor Code, Division rules, and fee guidelines impact the disputed fee issues"… This request for medical fee dispute resolution was received by the Division on March 15, 2007. Review of the requestor's position statement finds that the requestor has not discussed how the Labor Code, Division rules and fee guidelines impact the disputed fee issues. The requestor has therefore failed to complete the required sections of the request in the form and manner prescribed by the Division sufficient to meet the requirements of 28 TAC §133.307(c)(2)(F)(iii).

6. Division Rule at 28 TAC §133.307(c)(2)(G) , effective December 31, 2006, and applicable to disputes filed on or after January 15, 2007, 31 TexReg 10314, requires the requestor to provide "documentation that discusses, demonstrates, and justifies that the amount being sought is a fair and reasonable rate of reimbursement in accordance with §134.1 of this title (relating to Medical Reimbursement) when the dispute involves health care for which the Division has not established a maximum allowable reimbursement (MAR), as applicable". This request for medical fee dispute resolution was received by the Division on March 15, 2007. The requestor's position statement asserts that "Few think that Medicare's reimbursement is Fair and Reasonable, as indicated by the commission's implementation of 140% of Medicare rates for physicians and 213.3% of Medicare rates for free standing surgical centers. The Medicare APC rate for this service is $2,592.03 times 140% is $3,628.84. We only received $1438.62 in payment for this service-seriously below even the APC rate alone. We request that the insurance carrier pay the remaining balance of $2190.22." Review of the requestor's position statement finds that the requestor did not discuss or explain how it determined that 140% of the Medicare rate would yield a fair and reasonable reimbursement. Nor did the requestor submit evidence, such as redacted EOBs showing typical carrier payments, nationally recognized published studies, Division medical dispute decisions, or documentation of values assigned for services involving similar work and resource commitments, to support the proposed methodology. Nor has the requestor discussed how the proposed methodology would be consistent with the criteria of Labor Code §413.011, or would ensure similar reimbursement to similar procedures provided in similar circumstances. Additionally, the requestor did not provide documentation, such as Medicare fee schedules, redacted EOBs, payment policy manual excerpts, or other evidence, to support the Medicare payment calculation. Review of the documentation submitted by the requestor finds that the requestor has not discussed, demonstrated or justified that the payment amount sought is a fair and reasonable rate of reimbursement in accordance with 28 TAC §134.1. The request for additional reimbursement is not supported.

7. The Division would like to emphasize that individual medical fee dispute outcomes rely upon the evidence presented by the requestor and respondent during dispute resolution, and the thorough review and consideration of that evidence. After thorough review and consideration of all the evidence presented by the parties to this dispute, it is determined that the submitted documentation does not support the reimbursement amount sought by the requestor. The Division concludes that this dispute was not filed in the form and manner prescribed under Division rules at 28 Texas Administrative Code §133.307(c)(2)(A), §133.307(c)(2)(F)(iii) and §133.307(c)(2)(G). The Division further concludes that the requestor failed to meet its burden of proof to support its position that additional reimbursement is due. As a result, the amount ordered is $0.00.
